Plagiarism Checker

**Instructions to Compile and Run the Software**

Using XAMPP:

- Place the files 370FinalProject.html and checker.php in the htdocs folder located inside the XAMPP file folder.
- Run the xampp-control application located in the XAMPP file folder.
- Under “Actions” for the Apache module, press the start button.
- On your browser, go to “localhost/370FinalProject.html”
